TO-DAY'S CUP RACE WON BY RESOLUTE

Turkish Government Decides Best Course Is to Sign Treaty

Officially Announced in Constantinople Pact Will Be Signed; Greek Troops in Adrianople; Many Turks Arrested While Plotting Moslem Uprising.

Constantinople, July 21.—(Associated Press)—The Turkish Government has decided to sign the peace treaty, it was officially stated to-day.

The Turkish War Office was advised to-day that the vanguard of the Greek army had entered Adrianople.

Constantinople, July 20.—Via London, July 21.—(Associated Press)—Wholesale arrests were made here to-day in connection with an alleged plot to promote a general uprising of Moslems against foreign occupation.

Confession of one plotter is reported to have implicated high officials of one of the Entente Powers in the alleged conspiracy, which was directed chiefly against the British.

Government-Sinn Fein Discussion Now Reported

London, July 21.—The Sinn Fein and the British Government are prepared to discuss, if they are not already discussing, a basis of probable settlement of the Irish question, according to a statement received by The Daily Mail's Dublin correspondent, who says the Irish political circles where this report is current are usually well informed about important movements at Westminster.

Both Sinn Fein and Labor leaders in Dublin are busy, adds the correspondent, and important statements are expected to be made at Thursday's debate in the House of Commons.

The alarming increase of violence in Ireland, the correspondent says, is frightening the responsible leaders of the Irish party, advocating a republic, many of whom appear to be inclined to listen to any generous offer from Downing Street. It is understood the Home Rule Bill now being considered by Parliament must first be shelved, before the leaders will enter into negotiations.

FURTHER CONFERENCE ON AIR SERVICE

Details Yet to Be Cleared Up Regarding Seattle-Victoria Aerial Mail

Seattle, July 21.—The proposed air mail service between Seattle and Victoria will be taken up at a conference in Vancouver, B. C., the latter part of the week between Canadian postal officials and Edward McGrath, Superintendent of Railway Mail Service for this district. Mr. McGrath, who has been given complete charge of arranging the institution of the service for the United States, will leave for Vancouver Thursday evening. The matter now rests largely with the Canadian Post Office Department, as practically full authority to inaugurate the service has been received by the Seattle postal officials.

No date has been fixed with the mail has been set aside as the Victoria officials are awaiting permission from Ottawa to participate in the new service.

BOLSHEVIKI READY TO NEGOTIATE

Lloyd George Gathers They Wish to Deal Directly With Poland

London, July 21.—Premier Lloyd George, addressing the House of Commons to-day, said the Russian Soviet's answer to the Allies regarding peace with Poland was incoherent, ambiguous and propaganda largely intended for home consumption. So far as he could understand, however, the Soviet indicated its willingness to negotiate direct with Poland.

Bolshevik Charge.

London, July 21.—(Jewish Telegraphic Agency)—Charges that the Polish troops retreating before the Bolsheviks carried out numerous pogroms and perpetrated atrocities of the gravest nature upon members of the Jewish population are contained in an official Bolshevik wireless message received here to-day.

The War, the correspondence of the agency announced that the representatives of Jewish organizations there have organized a Jewish Defense Council for the purpose of aiding and co-operating with the Polish Military authorities.

Ottawa, July 21.—(Canadian Press)—News of the dismissal of the peti-

VANCOUVER DRYDOCK TO BE STARTED SOON

Construction Work to Be Commenced Before End of September

Coughlan Prepare; Papers Signed at Ottawa; a \$3,000,000 Undertaking

Vancouver, July 21.—The contract for the construction of the \$3,000,000 drydock on Burrard Inlet by Canadian & Sons has been signed in Ottawa and contains a provision that the work is to be started within sixty days of the completion of the dredge. This means that construction of the dock will be commenced before the end of September.

The firm would be given the task of completing the big graving dock here was made some months ago and for the past several weeks J. J. Coughlan, has been in the capital completing the negotiations for financing the undertaking, which will cost in the neighborhood of \$3,000,000. The arrangements have now been completed and preparations for getting the work under way will be started immediately.

Papers Ready.

Detailed plans of the dock have been prepared by A. D. Swan, who is the consulting engineer for the Ballantyne Pier and other developments of Vancouver Harbor, of which the drydock will form an integral part.

Further details regarding the start of the dock could not be given to-day, by John Coughlan, who stated that while he was aware that the negotiations at Ottawa had come to a mutual conclusion, he conversed with the details of the arrangements just negotiated by J. J. Coughlan at the capital.

FORD MAY TRY FOR PRESIDENCY

Prohibitionists May Bring Him Out As Candidate in States

Lincoln, Neb., July 21.—Faced with semi-official information that neither W. J. Bryan nor "Billy" Sunday would be available for a national ticket, the Prohibition Party forgot nominees at the opening of its convention here to-day and swelled through two hours of speech-making in an unventilated auditorium.

Speakers spent the morning session in praising their own party and declaring that the Democrats and Republicans had done nothing at their conventions but "throw stones at each other."

Bryan Unwilling.

It was made absolutely certain to day that Bryan, by his friends of Mr. Bryan, that the Nebraskan will not accept the nomination if it is offered him. Delegates apparently were reluctantly coming to the conclusion that his wishes must be respected and that it was believed he would not be placed in nomination.

"Billy" Sunday's statement in Hood River, Oregon last night that he was "satisfied with Harding" was considered as eliminating him.

Leaders seemed certain, however, that a candidate would be chosen and Henry Ford was being mentioned.

Chicago, July 21.—Dr. Van-

derberg, who assisted the court physician in the treatment of the former German Kaiser, has entered into association at Doorn Castle yesterday and decided that the condition or Mrs. Hohenzollern, the former Kaiserin, was such as to forbid her being informed of the suicide of Joachim Hohenzollern, her youngest son.

MRS. HOHENZOLLERN NOT INFORMED SON KILLED HIMSELF

Doorn, Holland, July 21.—Dr. Van-derberg, who assisted the court physician in the treatment of the former German Kaiser, has entered into association at Doorn Castle yesterday and decided that the condition or Mrs. Hohenzollern, the former Kaiserin, was such as to forbid her being informed of the suicide of Joachim Hohenzollern, her youngest son.

STREET CAR MEN IN ROME INJURED

Resuming Work After Strike, Put Red Flags on Cars; People Objected

London, July 21.—A dispatch to the Central News from Rome says a serious clash occurred yesterday between tramway workers and the populace.

The tramway men, who had been on strike, resumed their duties in the morning, but decorated their cars with red flags and Bolshevik emblems. The people, enraged at this, attacked the cars, tore down the flags and beat drivers and conductors, many of whom were seriously injured.

London, July 21.—Premier Lloyd George, addressing the House of Commons to-day, said the Russian Soviet's answer to the Allies regarding peace with Poland was incoherent, ambiguous and propaganda largely intended for home consumption.

So far as he could understand, however, the Soviet indicated its willingness to negotiate direct with Poland.

Bolshevik Charge.

London, July 21.—(Jewish Telegraphic Agency)—Charges that the Polish troops retreating before the Bolsheviks carried out numerous pogroms and perpetrated atrocities of the gravest nature upon members of the Jewish population are contained in an official Bolshevik wireless message received here to-day.

The War, the correspondence of the agency announced that the representatives of Jewish organizations there have organized a Jewish Defense Council for the purpose of aiding and co-operating with the Polish Military authorities.

Ottawa, July 21.—(Canadian Press)—News of the dismissal of the peti-

ITALY SENDS MORE MEN TO ALBANIA; FIGHT IN AVLONA

London, July 21.—Fighting in Avlona, Albania, is reported in a London Times dispatch from Milan. Italian warships and coast artillery bombarded the Albanian positions, which replied with rifle fire.

The movements of Italian troops is increasing rapidly.

RETAIL GROCERS NEED NOT FILL OUT QUESTION PAPERS

Ottawa, July 21.—(Canadian Press)—The Board of Commerce questionnaire to retail grocers has for the present been discontinued. Some time ago, a question was taken in Parliament and elsewhere to this questionnaire as imposing on the trade concerned too severe a burden in proportion to the object in view.

The movement of Italian troops is increasing rapidly.

COMMUNISTS ARE HOLDING CONGRESS IN PETROGRAD

London, July 21.—Fifty-one countries are represented at the Second International Communist Congress which opened in Petrograd July 19, says a wireless message from Moscow. Among the numerous delegates are two from Great Britain.

The movement of Italian troops is increasing rapidly.

DUNSMUIR MILLIONS ARE LEFT TO WIDOW

Will of Hon. James Dunsmuir Leaves Disposal Unfettered

All the property and millions of the late Hon. James Dunsmuir have been left intact to his wife by his will which was filed in the Supreme Court to-day.

In his will, however, the late Lieutenant-Governor expresses the hope that at her death she will divide all the property equally among the children. There are nine children.

Mr. Dunsmuir asks that consideration be given to the Canadian Northern 2½ per cent. Dominion Government guaranteed debentures which he may have distributed to some of his children before he died. This refers to the \$10,000,000 of Canadian Northern debentures derived from the sale of the Dunsmuir coal mines to the Canadian Collieries.

No estimate of the value of the estate is made in the will and outside of the mention of the foregoing debentures, there is no reference to any piece of property.

The will was made on October 15, 1917. It is very short.

It give all my property to my wife for her own use and benefit absolutely, hoping but not imposing any legal obligation or creating any trust or inferring anything that could or might feel or tend to restrict or limit her from exercising and enjoying the fullness of ownership of and in such property, that she will divide and bequeath to those of our children who are living at her death, in equal shares, so much of the property, which I have hereby given to her as she may not have sold or otherwise disposed of at the time of her death.

And that by her will she will provide that if in my lifetime and either before or after the date of this my will, I shall have transferred to any of such children any of Ontario Northern 2½ per cent. Dominion Government guaranteed adventure stock, such stock shall be taken in or towards satisfaction of the share of any of such children under her will and be accounted for accordingly.

And I appoint my said wife the executrix of this my will and guardian of my infant children."

Hon. Mackenzie King Asks Followers to Oppose • Meighen's Supporters

Ottawa, July 21.—Hon. Mackenzie King, Opposition Leader, has issued a statement calling upon his followers to oppose the Government candidates in the coming by-elections.

Mr. King added that he would shortly open a political tour of Ontario and deliver addresses in six different centres. Later, probably in September, he plans to visit the West and after a series of speeches there, will swing to the East, carrying on his campaign of oratory right through to the Maritime Provinces.

FIFTY YARDS APART.

Both yachts crossed on the starboard tack within fifteen yards of one another. Both tacked a few minutes after the start and at 1:10 were hauling away for the Jersey shore.

Resolute worked out about 100 yards to windward and well ahead. It looked as if Shamrock could cross the defender's bow.

SHAMROCK IN LEAD.

At 1:30 both boats were still holding in the port tack for the Jersey shore, with Resolute a quarter of a mile to windward of Shamrock's wake. Shamrock had increased her lead to three-eighths of a mile.

At 1:40 Shamrock was well ahead of Resolute and it seemed as if she would cross the defender's bow if she went about on the starboard tack. It looked as if she would have a margin of several hundred yards in her favor.

Shamrock had a wide lead, with Resolute following on the edge of the wind.

Shamrock was ghosting along in surprising fashion with a small bone in her teeth as she headed inshore to catch the breeze that came off the Jersey shore. Her crew lay along the weather rail and Captain Burton held the helm on the edge of the wind. Far to weather was Resolute, but the defender evidently had been reaching on the long port tack inshore.

COLLECTIVE PLAN FOR WHEAT CROP.

Saskatchewan Co-operative Elevator Men Will Discuss Marketing Scheme

Regina, July 21.—When the directors of the Saskatchewan Co-operative Elevators meet Saturday they will discuss a proposal for the collective marketing of the 1920 wheat crop. No details of the plan have been yet made public.

Toronto, July 21.—There need be no great difficulty to run and sell under marketing conditions in the advice of The Toronto World to Canadian farmers in regard to their wheat.

"For the next three weeks," says The World, "the bulls and bears will be sending out contradictory reports of the yield, of blights, of rust, of grain prices.

"And the farmers of Canada have better transportation in the way of railways, train equipment and a more modernized business than have the farmers of the United States. We can sell and deliver to them better than they can compete with us in Europe."

PEKING, JULY 21.—Peace terms amounting to complete capitulation of the military party have been offered by General Tuan Chi-jui, the army commander, it was stated here to-day. The terms are being communicated to the leaders of the Chihli faction.

Tuan Chi-jui, it is said, being confronted by what he considered insurmountable difficulties, tendered his resignation but President Hsu Shih Chang has not accepted it.

CHINESE MILITARY PARTY OFFERS TO GIVE UP FIGHT.

Peking, July 20.—Peace terms amounting to complete capitulation of the military party have been offered by General Tuan Chi-jui, the army commander, it was stated here to-day. The terms are being communicated to the leaders of the Chihli faction.

Tuan Chi-jui, it is said, being confronted by what he considered

insurmountable difficulties, tendered his resignation but President Hsu Shih Chang has not accepted it.

HIGHER RAILWAY FARES IN BRITAIN CAUSE OUTBURST

London, July 21.—The whole press is in a ferment over the proposal to raise railway fares 100 per cent above pre-war rates on August 5. Ministers in the House of Commons did not go so far as to themselves beyond a pledge that the increased fares would not come into force before that date, though Arthur Neat, Under-Secretary, privately met newspapermen and told them it was a wrong inference to make that the increase would necessarily be enforced that day.

The railways under Government control are now costing the taxpayers £1,000,000 weekly, but the chief outcry against the increase is on behalf of holiday makers, who will be penalized.

ENGINEERS ARE GIVEN CERTIFICATES

Vancouver, July 21.—Under the provisions of the recently-enacted Engineering Profession Act of British Columbia, certificates have been issued to the following:

Civil engineers—Prof. E. G. MacLaren, Messrs. D. O. Lewis, H. L. Robertson, T. T. Dunlop, J. H. Pillsbury, W. A. Richardson, H. M. Burwell, W. Anderson, W. H. Eassie, J. R. Holdcroft, A. L. McNaughton, R. H. Lee, R. Fowler, K. Alexander, F. H. Allwood, D. McMillan, H. G. Ramsden, J. W. McMillan, J. A. Walker, H. K. Dutcher, J. H. Deve, C. R. Craydell, W. G. Swan, A. K. Robertson, F. L. McPherson, W. F. Richardson, E. E. Verner, A. L. Caruthers, R. M. Taylor, J. A. Stephen and R. W. MacIntyre.

Mining engineers—Messrs. S. S. Power, R. M. Thompson, A. W. Davis, H. Lee, R. D. Hearn, F. B. Freeland, F. W. Guernsey, R. W. Brock, A. G. Langley, N. E. Nelson, G. P. Jones, T. Graham, R. H. Stewart and B. E. Eastman.

Mechanical and electrical engineers—Messrs. P. Sawford and J. McMillan.

BRITISH COLUMBIA TIES TO INDIA

Vancouver, July 21.—An order for 4,000,000 feet of creosoted British Columbia ties has been received by the H. R. MacMillan Export Company, Ltd., from the Government of India and this will mean much activity in British Columbia mills and the Dominion creosoting works at North Vancouver. The order is to be forwarded by the first Canadian Government cargo vessel assigned to the Indian run, and will be shipped towards the end of the year.

Mr. MacMillan secured the order while in India, and the ties will be loaded here for discharge at Calcutta. The timber will be supplied by Associated Timber Importers and consigned at the North Vancouver works, which will be busy for several months on the consignment.

COX DECLARES U.S. REPUBLICANS ARE RAISING BIG FUND

Columbus, Ohio, July 21.—Charges that the Republicans were raising a campaign fund "sufficient to shock the sensibilities" were made last night by Governor Cox, Democratic candidate for the Presidency of the United States, in an address to the Democratic National Committee, which perfected an organization for the campaign.

The Democrats, the candidate said, will insist on continuance of the senatorial investigation of campaign contributions and expenditures, and also will make frequent and detailed accountings of their finances.

The Democratic platform, he declared, is a "provisionary lot," which will be paid in full.

Congressman George White, of Marietta, Ohio, was predicted as the possible chairman of the Democratic National Committee and manager of Governor Cox's campaign. He was recommended by the sub-committee charged with that selection.

TAX COLLECTION

CHANGE URGED

B. C. Retail Merchants Want
Luxury Collected From
Manufacturers

Ottawa Asked to Dismiss
Commerce Board and
Name New One

New Westminster, July 21.—The following officers were elected at the third provincial convention of the Retail Merchants' Association, which came to a close here last night:

President of the Branch, M. J. Phillips, New Westminster; first vice-president, Harvey Murphy, Nanaimo; vice-president, J. H. Ashwell, Chilliwack; treasurer, Daryl H. Kent, Vancouver (re-elected). The five members on the executive board are the new officers, with Secretary G. S. Hougham, the alternates being members of the past executive.

Retiring President G. H. McRobbie was re-elected as member on the Dominion Executive. The nominating committee submitted the name of Mr. McRobbie as president, but he declined, and Messrs. Phillips, Murphy, Crysler and Miller were nominated. The three latter declined and the election of the New Westminster man was made unanimous.

Luxury.

Among the important resolutions passed at the afternoon session was the following:

"That we are opposed to being tax collectors for the Government in reference to the luxury tax."

A gross sales tax was advocated by some of the delegates. Another suggestion was that the taxes be collected by the concerns that sell to the retailer.

These suggestions created considerable discussion, in which Dominion President Banfield and Dominion Secretary Trower took an active part. The former stated that he had heard nothing of the suggestion, but with both Sir Henry Drayton and the Hon. Arthur Meighen and that both had stated that money was needed urgently and had declared that a stamp tax arrangement would be perfected.

"Give us a little more time and I'll defeat the Government on this luxury tax," declared President Banfield at the start of the discussion.

The delegates were all of one mind, this being that some sane and economical method of tax collection should be inaugurated. A resolution in that connection finally carried, with Vancouver the only dissenting vote. It urges that "the taxes be collected from the source of supply, namely, the manufacturers and importers."

Commerce Board.

A resolution requesting the Government to disband the Board of Commissioners and appoint a new board representative of the manufacturers, wholesalers, retailers and consumers carried unanimously.

After a slight alteration the resolution from the grocery branch of the Vancouver Association was referred to the Dominion board for action.

The resolution asked for the dissolution of the association of the grocers in Vancouver as not complying with the order to fill out the cumbersome questionnaires sent out by the Board of Commerce in respect to stock, etc., on the ground that it was practically an impossibility to do this each month.

The convention went on record as strongly opposing the action of the association of the grocers in respect to the action of the Board of Commissioners, contending that this should be included in their overhead charges, as delivery is part of the service in modern business.

PROVINCIAL TAXES.

That the Provincial Government

eliminate the assessment on stock and assess only on income was another contentious question. It was pointed out that at present, if a merchant had \$10,000 worth of stock and invested \$5,000 in it, he was assessed for the full \$10,000.

It was finally decided to leave this matter in the hands of the incoming executive to decide what method to

adopt.

Provincial Taxes.

A dispatch from Dublin last night said an official report received at Dublin Castle on the rioting at Tuam

County Galway, Ireland, early yesterday morning, said that after the murder of Constables Burke and Carey, a party of police established

in Tuam. The police got out

of hand on seeing the dead bodies

of their comrades. Shots were fired and houses burned. The police de-

clared they were fired upon.

ROYAL VICTORIA

All the world loves a lover, and that token Miss Norma Talmadge will increase the number of her many admirers by her work in "The Woman Gives," which will be shown at the Royal Victoria Theatre again to-day. Miss Talmadge as Inga Sonderson and Edmund Lowe as Robert Milton depict the parts of two of the most entertaining and pleasing lovers who have ever appeared on the screen.

DOMINION

Nazimova, the screen's greatest actress, is at the Dominion Theatre this week in a picturization of Frank Danby's most celebrated novel, "The Heart of a Child."

In "The Heart of a Child," the newest production, the Russian star appears in a character entirely different from any she has essayed in the past, that of Sally Shape, a cockney girl from the Limehouse district of London, who is forced to face the world with no other means of protection than her innate goodness and her inborn sense of what is right, her child's heart.

There is in "The Heart of a Child," a gorgeously of pictorial beauty. The early tenement-street scenes are done with amazing fidelity to detail, yet created with their pictorial beauty that brings them to picture-hunting on the screen. Such luminous bits of the story as the Bohemian revel, the theatrical dressing-room

NEW VAUDEVILLE BILL AT PANTAGES

Gautier's Toy Shop Is Headliner in Performance; Other Features

The featured act of the new programme, which opens with the matinee performance to-day is one of the rare acts of the variety stage. The "Page Players" will be in the Gautier's Toy Shop, raised into the headliner in a genuine headline feature, and one that appeals to every taste in an audience. In the opening scene a modern toy shop is shown with hobby horses and other toys that cause the "Page" to jump with joy. The usual entertainment begins when the boys become animated actors and the scene of the shop pulsates with the joy of comedy and skillful entertainment.

Several ponies and dogs and two monkeys compose the troupe, but there is not the slightest resemblance to the ordinary animal act. It is a real headline.

"Somewhere in France" is the special added attraction of the new bill. There is snap and wit galore in this conversational turn of the scene which is supposed to be an advanced observation post on the Western Front. A Cockney, an Irishman and a Canadian are the impersonations of the cast and hilarious laughter abounds during the period of their presence on the stage.

One of the most remarkable family novelties on the stage today, "A Study in Pep," will be offered by Pearson, Newport and Pearson. Fred Weber and company will present a ventriloquist oddity in which a messenger boy waiting to deliver a grip, furnished the comedy. He sits in a chair until he has been crying within a scratch. On being released the infant contributes to the entertainment in no small degree.

The Mizuna Japs, a man and two ladies from the Flower Kingdom, will present one of those clever juggling acts for which the race is famous.

Louise Gilbert, a young lady with a wonderful voice, will complete the vaudeville bill in "Songs and Smiles." Her songs are new and varied.

In addition to this feast of good vaudeville will be the thirteenth episode of "The Adventures of Ruth." Corinne Griffith wears twenty-four different and beautiful gowns in "The Whisper Market," her forthcoming Vitagraph production. The opportunity is provided by the character she portrays, the wife of the American Consul at Rio de Janeiro, and the silent partner of a fashionable modiste.

Alice Joyce has completed her latest Vitagraph special production, "The Vice of Fools," at the Brooklyn studio. As the star is well ahead of her schedule she will take several days' rest.

William Duncan is on an automobile tour through the Yosemite National Park seeking recreation after six months' strenuous work on his Vitagraph serial, "The Silent Avenger," recently completed. He will begin work on another serial

an average of eighteen per cent of potassium oxide. The deposits in Alsace are estimated to contain 300,000,000 tons of potassium oxide, enough to supply the world's need at the normal rate of consumption before the war for about 275 years.

Before the war, when the world's supply was controlled by the Kali Syndicate, the mines in Alsace produced about five per cent of the total world's output, equivalent in 1913 to about 220,000 tons of crude mixed salts containing 41,000 tons of potassium oxide (K₂O), or actual potash. The material mined carries

an average of eighteen per cent of potassium oxide. The deposits in Alsace are estimated to contain 300,000,000 tons of potassium oxide, enough to supply the world's need at the normal rate of consumption before the war for about 275 years.

Chu Chu Mines

Work at the Chu Chu coal mines is progressing very favorably, and it is expected that before long active production will be started.

World's Gold Production

The United States Geological Survey, Department of the Interior, shows the production of gold throughout the world in 1919.

The production in the United States was \$58,255,196; Canada is reported to have produced \$14,687,000; India, \$10,600,000; Australia (not including New Zealand or the islands), \$29,268,000; the Transvaal, \$171,646,123; Rhodesia, and West Africa, \$18,631,970.

There was a probably large decrease in the production of gold in Russia and Siberia in 1919.

Some increase was probably made in the output of Central America and South America,

which, however, was doubtless offset by decreases in the output of other countries.

The incomplete returns now available indicate that the world's production of gold in 1919

was between \$345,000,000 and \$350,000,000.

The world's production in 1918 amounted to \$380,924,500.

The Geological Survey further states that information received during the first month of 1920 indicates a further decrease in the production of gold in the United States and that the output for the year will probably be less than \$50,000,000.

Coal in North

Regular shipments of coal are now

being received in the city from the MacLeod River coal mine, which is owned and operated by Nick Gurvich, of Prince Rupert. Recently Mr. Gurvich bought his prospector partners out and is now sole owner of the property, which now employs thirty men. The MacLeod River mine is located about 100 miles from here on the line of the Grand Trunk Pacific Railway near Edson.

This mine was opened up four

months ago and its coal has been

coming to Prince Rupert for two

months. Eight carloads were

recently hauled to town and be-

ing some of the outfit is being sent

to Edmonton. The present produc-

tion is four carloads a week, but in

the course of two months' time,

when the working crew will be dou-

bled, it is expected to send out from

ten to fifteen.—Prince Rupert News.

Toby Creek

Invermere—The Toby Creek Min-

ing Company, Limited, of Vancouver,

with Mr. W. L. Smith as manager, is

pushing development work on its

property near the Jumbo Fork of

Toby Creek, known as the Silver King.

The work of construction of the

wagon road to the property is still

largely on this as to how quickly the

larger development work of the mine

will be pushed.

Later development has been cross-

cutting at about ninety feet from the

surface, the overhanging

tail of the lead to the mouth of the

tunnel. On all four sides of the

cross-cut very rich shipping ore in a

large quantity is found.

Vancouver Island—Canadian West-

ern Fuel Co., 56,474 tons.

Canadian Collieries—Comox, 41,426

tons; South Wellington, 6,887; Exten-

Alsatian Potash

The potash deposits of Alsace, recently visited by Messrs. Gale and Cameron, of the United States Geological Survey, lie beneath an open stretch of the valley of the Rhine in southern Upper Alsace, about twenty-five miles north of the Swiss border. No evidence of either the potash or of the large masses of common salt that are associated with it is found at the surface; the potash was discovered only by borings put down in search of coal. Under the German rule a large part of the potash field was owned and operated by the great potash monopoly, the German Kali Syndikat. All the potash properties in the region are now in the hands of representatives of the French Government.

The potash deposits lie at depths ranging from 1,200 to 2,200 feet below the surface, in two beds, one about sixty feet below the other, which are mined through concrete lined shafts, somewhat as coal is mined. The place of the deposit is striking. The present walls of sparkling crystalline salts, bounded in nearly horizontal or less wavy stripes of red and white, resembling a part of an immense flag. Much of the crude material is used for fertilizer after crushing only. In the refining process the mother liquor is used repeatedly as the accumulation of impurities in it is slow, this being considered one of the advantages which the French field has over the German. The resultant product from the refining of the Alsatian potash is a high-grade chloride.

Before the war, when the world's supply was controlled by the Kali Syndicate, the mines in Alsace produced about five per cent of the total world's output, equivalent in 1913 to about 220,000 tons of crude mixed salts containing 41,000 tons of potassium oxide (K₂O), or actual potash.

The material mined carries an average of eighteen per cent of potassium oxide. The deposits in Alsace are estimated to contain 300,000,000 tons of potassium oxide, enough to supply the world's need at the normal rate of consumption before the war for about 275 years.

THE VICTORY.

The victory of the challenger in the first two races of the great international yachting series is without precedent, we think, since the trophy passed to the western side of the Atlantic. Sir Thomas Lipton thus has experienced a sensation that was denied Lord Dunraven, his immediate predecessor in the attempts of British yachtsmen to recapture the cup, or any other challenger in former years. Further, Shamrock IV. has to win but one more race to realize the hopes her indefatigable owner has placed in her, while the defender must capture three events to hold the trophy, a condition which gives the Irish craft very substantial advantages. It would be a mistake, however, to assume that ultimate victory for the challenger is a certainty. It should be remembered that Shamrock won the first race owing to an accident to her opponent's sail when the defender was well in the lead. In yesterday's race, however, the challenger showed a clear pair of heels notwithstanding the fact that the breeze was so light that for a time there was considerable doubt of whether the winning yacht would finish within the time limit or not. This result under particular weather conditions is a reversal of the record of preceding contests in which the defender always has shown herself to be the speedier craft in the ghostly winds which invariably prevail off Sandy Hook at this season of the year. Weather conditions to-day are very much the same as those of yesterday and, considering her showing in the second race and given skilful handling, Shamrock IV. should repeat her performance and raise her gallant owner to the summit of his ambition.

SUGAR AGAIN.

In an Ottawa dispatch under yesterday's date the Canadian public is informed that the Board of Commerce has agreed to permit the sugar refiners to fix the price of sugar at twenty-four cents per pound. And from Montreal comes the report that all the Canadian refineries have joined in the increase with the exception of the St. Lawrence refinery. It was not stated why the hesitant concern found a little difficulty in falling into line with its competitors. In the meantime, however, and following the example set by the merchants of Windsor and other border towns, the Canadian dealers and jobbers along the Niagara frontier are rushing their sugar supplies by automobile across to the American side, where thirty dollars per hundred pounds is easily obtainable. In other words the refineries are authorized by the Board of Commerce to increase the retail price and the already meagre supply is allowed to leave the country in the face of Sir George Foster's assurance that the Dominion Government is and has been "exercising its authority over the export of sugar from Canada."

SINN FEINERS NEGOTIATING?

According to information reaching the Dublin correspondent of The Daily Mail the Sinn Feiners and the British Government are prepared to discuss a basis of settlement of the Irish question. One reason for this reported conciliatory attitude is said to arise from the fact that the alarming increase of violence has injected not a little apprehension into the minds of the responsible leaders of the Irish Republican party, many of whom are now understood to be in a mood to listen to any generous offer from Downing Street.

While any form of recognition of Sinn Fein authority would be tantamount to an abdication of power on the part of Downing Street, it must be said of conditions as they exist in Ireland at present that as far as the British Government is concerned its constitutional control of that part of the United Kingdom has shrunk to a passive consent to every sort of excess. Under the circumstances, therefore, if it should develop that a solution could be found for the present state of affairs by a conference with the rebel forces, the sooner it takes place the better for all concerned.

RUSSIA AND POLAND.

It is not to be supposed that Soviet Russia will halt her armies on the eve of a gigantic coup in Poland unless the terms of the armistice proposed by Great Britain contain some recompense compatible with the magnitude of the campaign which the Moscow Government was obliged to wage by reason of the varied assistance given by the Allies not only to Poland but also to the forces of Denikin and Kolchak. The Soviet reply to the British note, however, may not be regarded as the last word, nor does the Bolshevik bid for better terms bear any particular relation to the Soviet Government's good faith in respect of the proposed trading agreement between Russia and Great Britain.

The campaign which now threatens Poland with destruction was a blunder of the first magnitude. Allied intervention in Russia at the outset added to the complications which have now become interwoven with the commercial proposal

which promised to be a turning point in the resettlement of Europe. And if Mr. Lloyd George persists in his threat to suspend all pourparlers between the British Government and Trade Envoy Krassin, augmenting them by concerted military support to Poland, he is sponsoring a course which may lead to disastrous consequences.

It goes without saying that the opponents of the Bolsheviks have had, and rightly deserved, the sympathy of the Allied peoples because their object was the establishment of constitutional Government and the overthrow of the band of anarchists whose retention of power was made possible by the exercise of a ruthless policy of massacre and starvation. But the Bolshevik Government has succeeded in defeating every one of its enemies in turn and now has undisputed dominion over the whole of Russia in Europe. It must be remembered, however, that neither Kolchak nor Denikin could have been suppressed had it not been for the fact that the Bolshevik leaders to a very large extent mitigated the wild extravagances of their original programme, and by making large concessions to the national traditions of Russia the people as a whole were ready to aid them in fighting armies which were subsidized from abroad.

The activities of Kolchak and Denikin gradually transformed the Moscow Government, under pressure from without, into something approaching a national government of Russia. Here is Russia's chance to emerge with some credit to herself, and her hope and the hope for a re-settlement of Europe's condition in the main lie largely in the resumption of trade with Great Britain and her Allies. An armistice is essential to the peace of Europe; further military intervention would be suicidal.

A RECORD.

The Hon. George Murray, Premier of Nova Scotia, whose Government will make its appeal to the people of Nova Scotia next Tuesday has a record of office without parallel in Canadian political history. He formed his first Ministry on July 20, 1896, in succession of the Hon. W. S. Fielding, who had entered Dominion politics, his period of office therefore being twenty-four years, exceeding that of any other Canadian Premier, Federal or Provincial.

The Liberal Government itself, however, is older in power than even its present leader. Under Fielding and Murray it has held office since 1882, a period of thirty-eight years. In the general elections held on June 22, 1916, the Government carried thirty and the Opposition thirteen of the seats. Party strength has not materially changed in the four years. Premier Murray has chosen a favorable time for the present appeal, and will in all probability secure a seventh endorsement at the polls from the electorate. Nova Scotia has been well governed by Premier Murray, and there has never been even a whisper of scandal in connection with the Murray administration of public affairs. The legislation enacted has kept the Province well to the front in the march of progress. The Opposition is practically without campaign material, and the cry it is time for a change makes little headway when directed against a leader Nova Scotians have learned to trust and honor, as, indeed, has all Canada.

NOTE AND COMMENT

It is the announced intention of the Canadian Pacific Railway Company to import some 20,000 Italian and Southern European laborers into this country for work upon the company's construction programmes. It is well that the various progressive bodies and service organizations are taking more than a passing interest in the announcement. While there is an idle man in the country willing and capable of doing work of this character, caution should be exercised in the introduction of foreign labor. The radical elements of Southern Europe would hail an opportunity to ship a few hundred revolutionaries to Canada under the guise of the thrifty Slav laborer.

FOUR PRISONERS IN
WASHINGTON ESCAPE;
POLICE HUNT THEM

Seattle, July 21.—Floyd Beverly, King County, serving a sentence of from one to fifteen years for breaking into the Albert Star, Yakima County, serving eighteen months to fifteen years for burglary; Joy Garrison, Spokane, serving from ten to twenty years for assault; and Floyd Simmons, Thurston County, serving from one to fifteen years for grand larceny, made a sensational escape from the State Reformatory at Monroe Tuesday evening and are now being hunted by police and deputy sheriffs in all nearby towns. The prisoners leaped the prison fence and disappeared in the woods. No trace of them had been obtained early to-day.

TIME REFORM AT SEA.
(From the Westminster Gazette.)

My reference yesterday to the wireless time signals which proved a substitute for a ship's broken chronometer brings me the information that by international agreement the practice of setting ships' clocks to "ship's time," varying with the longitude of the vessel, will cease to operate at the end of this year. The clocks will thereafter show "Standard Zone Time," based on that of the Greenwich meridian as zero, and the actual zone, east or west of Greenwich, through which the ship is passing, will also be indicated. The chronometers will still show actual Greenwich time, which is an important element in calculating a ship's position, but some twenty wireless stations in different parts of the globe will every day send out time signals by means of which the going of the chronometer can be checked.

AN ATHLETIC GOVERNOR.
(From The Westminster Gazette.)

Our congratulations at once to Lord Forster on his appointment as Governor-General of Australia, and to the Colony on having attracted an excellent man. Lord Forster has had an ample experience of politics during twenty-eight years in the House of Commons, and he has a dignity and impartiality of mind that at one time made him a likely choice for the succession to the Speakership. Moreover, he has youth, as noities go, and more youth than his years suggest. For he has kept himself in fine physical condition by his devoted to sport. Australia, with its passion for the open air and for athletics, will welcome one who joins to Ministerial experience the presidency of the Marylebone Cricket Club and the presidency last year of the Royal and Ancient Club. Lord Forster can still wield the bat, although in these days he is more devoted to the golf club. He has had just that variety of experience in public affairs which, with his temperament, should ensure his success in Australia.

The campaign which now threatens Poland with destruction was a blunder of the first magnitude. Allied intervention in Russia at the outset added to the complications which have now become interwoven with the commercial proposal

SAYS BAKERS HOIST
WITH OWN PETARDBylaw Governing Weight of
Loaves Is Target in
Court

David Wm. Hanbury, proprietor of the Golden West Bakery, was fined \$10 to-day in the police court for selling a loaf of bread under the weight stated on the label.

Fair Weights and Measures officer A. G. Robertson testified to buying a loaf weighing sixteen and one-half ounces, purporting to be an eighteen ounce loaf, and said that the bread was made by the accused

A. D. MacFarlane appeared for the accused, and contended that under the existing conditions it was utterly impossible for the bakers to live up to the letter of the bylaw to that degree of accuracy, in the weight of the individual loaf. The bylaw was under consideration in stamping out conviction could be secured on one loaf as evidence, said counsel for the defendant, and he contended that the correct test would be the average weight of a series of loaves.

Mr. Hanbury testified as to the making of the bread and the manner in which it was put into the baking pan for the individual loaf. It was impossible to tell the exact weight beforehand, he stated, but said an allowance was certainly made for shrinkage in the total given in evidence. He said "There's a lot of odd bread irregular to the batch from which it was taken. The bakers were more than willing to observe the law, he continued, but that it was utterly impossible and impracticable to guard against fluke weights with the city.

City Prosecutor Harrison reminded the court that the bylaw had been framed by the bakers themselves and that they should have been consulted in that respect. It was always open to the bakers to allow a little more dough to the individual loaf, and so be on the right side of the fence, he contended. The trouble lay in the law, stated Mr. Harrison, and the bakers were inclined to say "sail too close to the wind" and so could not expect immunity from the law that they had framed.

Magistrate Jay stated that the bylaw was very clear on the point of the individual weight of the loaf being correct, and said that although he had the power to impose a fine of \$50, he would fine the accused \$10, taking into account the fact that only one loaf had been sold under weight.

P. C. Perotta, defended by W. P. Marchant, was called on a charge of assault, and was remanded until Thursday for hearing.

HALF A MILLION
POLISH VOLUNTEERS

Warsaw, July 20.—Via London, July 21.—It is estimated that more than half a million responded to the Polish National Council of Defense for troops to oppose the Russians. Polish students and uniformed recruits to-day marched beside clerks and middle-aged men from the shop and fields.

Peasant scythes of Modlin, reviving the traditions of the scythes of Kosciuszko, who fought the Russians in 1794, marched through Warsaw to-day, en route to Poland's frontiers. There was a whole battalion of them, dressed in native costume, each man armed with a sharpened scythe, which glistened in the sun as the peasants marched through the streets.

GENERAL ELECTION
NOVA SCOTIA, JULY 27Murray Government Appeals
to People; Candidates
Nominated Yesterday

Halifax, July 21.—Yesterday was nomination day for the provincial general election in Nova Scotia on July 27, and there will be a contest in every constituency.

The Liberals have candidates in every county except Colchester, where Liberal and Conservative Farmers are opposing the straight Conservatives. The Conservatives have no candidates in Digby, Annales, Antigonish and Guysborough counties, and only one candidate in Pictou, Yarmouth and Hants. In these counties the Farmers are opposing the Liberals.

Liberals.

Liberal candidates are:

Annapolis—Hon. O. T. Daniels, F. R. Elliott.

Antigonish—Hon. W. Chisholm, A. H. McMillan.

Cape Breton—D. A. Cameron, A. B. McMillivray, W. F. Carroll, Dr. M. McNeil.

Cumberland—Lieut.-Colonel J. L. Ralston, R. S. Carter, V. B. Fullerton.

Digby—J. W. Comeau, H. W. B. Warner.

Guyoboro—James C. Lory C. N. Andrews.

Halifax—H. G. Bauld, Hon. R. E. Finn, J. B. Douglas, Adam Burris, J. Connolly.

Inverness—J. C. Bourinot, D. McLean.

Kings—Hon. H. H. Wickwire, John McDonald.

Lennoxburg—J. J. Kinley, A. S. Sperry.

Pictou—Hon. R. M. McGregor, R. H. Graham, Major J. W. Macdonald.

Queens—Dr. J. W. Smith, George S. McLean.

Richmond—Hon. G. H. Murray, Dr. Devan.

Shelburne—Hon. Robert Irwin, F. E. Smith.

Victoria—Hon. G. H. Murray, G. Buchanan.

Yarmouth—Hon. E. H. Armstrong, Dr. A. R. Melanson.

Conservatives.

Conservative candidates are:

Antigonish—Hon. Alexander McCormick.

Charles B. Smith.

Colchester—R. D. Kennedy, Dr. Dunbar.

Cumberland—Mrs. H. W. Rogers.

TEST TURTLE SERUM.

Berlin, July 21.—The famous "turkey serum" invented by Professor Friedmann, which created such a sensation several years ago when he announced it as a cure for tuberculosis, is now under investigation by a committee of the most eminent German doctors, including Professors Kraus of Berlin, Kruse of Leipzig and Braun.

GENERAL ELECTION
NOVA SCOTIA, JULY 27Murray Government Appeals
to People; Candidates
Nominated Yesterday

Halifax, July 21.—Yesterday was nomination day for the provincial general election in Nova Scotia on July 27, and there will be a contest in every constituency.

The Liberals have candidates in every county except Colchester, where Liberal and Conservative Farmers are opposing the straight Conservatives. The Conservatives have no candidates in Digby, Annales, Antigonish and Guysborough counties, and only one candidate in Pictou, Yarmouth and Hants. In these counties the Farmers are opposing the Liberals.

Liberals.

Liberal candidates are:

Annapolis—Edward Shafer, V. B. Leonard.

Antigonish—T. J. McGillivray, Frank R. Irish.

Colchester—R. A. Smith, H. Taggart.

Cumberland—D. G. McKenzie, G. E. Allan.

Digby—Capt. G. Campbell, A. M. Robshaw.

Hants—John McDonald, M. J. Alyward.

Pictou—Alex McKay.

Guyoboro—Dr. P. Floyd.

Independent.

Guyoboro—John A. Dillon.

GUNNERS BLAMED.

Graham, N. C., July 21.—A coroner's jury returned a verdict yesterday that without provocation, machine gunners guarding the county jail here fired on citizens Monday night, killing one man and wounding two others.

WOULD LOSE BACK PAY.

Winnipeg, July 21.—If the Winnipeg electric street car employees completely reject the award of the board of arbitration granting them a ten per cent. increase and strike, they will automatically reject their back pay, amounting to date to \$55,000, stated A. W. McMillen, vice-president and general manager of the company.

On Monday, electrical workers and linemen, gas meter men and a number of office employees signed up a year's contract based on the award and are receiving back pay dating from May 1.

IRRIGATION MEN
READY FOR MEETING

Fourteenth Convention Will
Be Held at Lethbridge
Shortly

The arrangements for the Fourteenth Annual Convention of the Western Canada Irrigation Association, which will be held at Lethbridge, Alberta, July 28, 29 and 30, are now practically completed. This convention will undoubtedly be one of the most important in the history of the Association. It is being held in the city that may be called the birthplace of irrigation in Western Canada, for it was at Lethbridge that the first irrigation system in Canada was projected. This city, being now the centre of a great movement for irrigation extension, is well suited to be the scene of an irrigation convention at this time.

Helpful Addresses.

A program of addresses that are instructive, helpful and interesting to all concerned in irrigation farming and to those engaged in agriculture generally has been drawn up. One of the principal discussions will be on "Soil Drifting," a topic of much concern to farmers throughout the prairie provinces. Professor W. H. Gardner, President of the Kansas State College of Agriculture; F. H. Auld, Deputy Minister of Agriculture for Saskatchewan; J. Bracken, the new principal of the Manitoba Agricultural College; C. S. Nott of Nottford, and others, will take part in this discussion.

Another matter which is of interest to farmers in Western Canada at the present time is "Silos and Ensilage." Prof. G. H. Hutton, who has given considerable attention to the matter of erection of silos, and the storing of ensilage, will be one of the speakers on this topic. This discussion will also be taken up by R. J. Ferris, Silo Instructor and Demonstrator of the British Columbia Department of Agriculture, and others.

Farm Engineering.

The College of Agriculture and Farm Engineering will be the subject of a series of lectures, given by the Faculty of Agriculture of the University of Alberta, and G. N. Houston, Assistant Commissioner of Irrigation, Department of the Interior, W. H. Fairfield, Superintendent, Dominion Experimental Farm at Lethbridge, will speak on "The Present and Future Progress of Irrigation Around Lethbridge." Miss W. A. Buchanan, M.P., will deal with "The Present and Future of Irrigation Around Lethbridge." A valuable address will be given on "Road Crossings, Structures, Lateral and Farm Bridges," by F. H. Peters, Commissioner of Irrigation, and will be followed up by D. W. Hayes, General Manager of the Canana Land and Irrigation Company. G. Anderson, Consulting Irrigation Engineer for the Province of Alberta, has promised a paper on "Irrigation Possibilities in Southern Alberta," which should be very interesting. "The Irrigation Farm Home and Its Surroundings" should be ably dealt with by A. Griffin, Superintendent, Operation and Maintenance of the Eastern Section of the Canadian Pacific Irrigation Block. "The Development of Irrigation in Southern Saskatchewan" will be discussed by J. D. Wilson, of Maple Creek, and others.

Mr. Pattullo Going.

Hon. T. D. Pattullo, Minister of Lands for British Columbia, has promised to be in attendance if possible, and will speak on "Some of British Columbia's Irrigation Problems." Another eminent speaker, Mr. Duncan Marshall, Minister of Agriculture for Alberta, will speak on "The Relation of Schools of Agriculture to Irrigation." "Seed Growing" will be effectively and interestingly dealt with by Don H. Bark and Professor G. H. Cutler, of the University of Alberta, and by A. L. Seeler, of Twin Falls, Idaho, who will, however, confine his address to the growing of peas for which the irrigated areas of Western Canada are well suited.

It is also probable that there will be in attendance at the Convention the Hon. C. M. Hartill, Minister of Agriculture for Saskatchewan; Hon. S. J. Letta, Minister of Highways for Saskatchewan; D. Warnock, Deputy Minister of Agriculture for British Columbia; Col. J. S. Dennis, C.M.G., Chief Commissioner, Dept. of Colonization and Development, Canadian Pacific Railway; H. W. Wood, President, United Farmers of Alberta; J. D. O'Donnell, President, Montana Irrigation and Drainage Institute; and H. E. Murdoch, Secretary, Montana Irrigation and Drainage Institute, who will also give short addresses.

To Open Wednesday.

The Convention will open at 2:30 p.m. on Wednesday, July 28. Much interest is expected, with a large attendance of delegates from the three provinces. The Association extends a hearty welcome to all farmers and others interested in irrigation, whether they have credentials or not, to attend the meetings of the Convention and take part in the useful discussions that have been arranged. The Convention is being held at a time of the year when the crops are well advanced and visitors will have an opportunity of seeing for themselves some of the good effects of irrigation on farms in the neighbourhood of Lethbridge.

To Ward Off Summer Complexion Ills

To keep the face smooth, white and beautiful all summer, there's nothing quite so good as ordinary mineralized wax. During the summer months, common at this season, is gently, gradually absorbed by the wax and replaced by the newer, fresher skin beneath. The face exhibits no trace of the old skin as applied at night, and is washed off mornings. Greasy creams, powders and rouge, on the other hand, are apt to appear more conspicuous than usual after days of excessive perspiration. Just get a ounce of mineralized wax at any drugstore and use it like cold cream. This will help any skin at once and in a week or so the complexion will look remarkably clear, young and healthy.

DIFFICULT TO PROVE.

Four of the ex-Kaiser's nephews have had to go to work. It will not be difficult to convince them that Germany really won the war.

DAVID SPENCER, LIMITED

Store Hours: 9 a.m. to 6 p.m. Wednesday, 1 p.m. Saturday, 6 p.m.

**FOR WOMEN AND HOME****SOCIAL PERSONAL**

Vancouver: Samuel Surisky and Miss Stella Surisky, Portland, Oregon; Mrs. Louis Stark and daughter, Boise, Idaho; Mrs. Monsewell, Winnipeg, and Mrs. G. M. Weston, Winnipeg.

Unknown to her thousands of admirers, or to her relatives in Australia, Dame Nellie Melba has been seriously ill, but fortunately, has now recovered, says The London Evening Standard. All the trouble was traced to a tooth. "For weeks I was feeling very ill," she said, "and ultimately had to take to my bed. After being in bed for over a month I felt sufficiently well to go abroad, and made a trip to Monte Carlo. But the doctor who examined me said the doctors were unable to diagnose my ailment. I went to Paris and was X-rayed there, but nothing could be found that would cause any serious trouble. Then one day while examining my teeth I discovered a tiny hole in one of them. You can see I have a fairly good set now. Dame Melba's smile revealed two wonderful rows of perfect teeth. "I went to a dentist, and for the first time in my life underwent the terrifying ordeal of having a tooth extracted. Every time I have had a tooth taken out I have been afraid it will like a two-year-old. I feel sure that there are many people who are silently suffering and cannot find out what is wrong, who could have the whole trouble removed if they would only go and see a dentist."

Mrs. R. S. Boyd and her little daughter Mavis, who has been residing with her mother at Mrs. John D. Dixon's, Oak Bay, for some time, left Sunday for Vancouver, en route to Belfast, Ireland, where they will join Mr. Boyd and make their future home.

Mrs. Home Dixon, who has been visiting her parents, Sir Douglas and Lady Cameron, at Shaughnessy Heights, Vancouver, came over to Victoria yesterday morning to join Col. Homer Dixon, and will take up residence in this city.

Capt. and Mrs. C. C. Cator returned to their home in Vancouver on Monday after visiting the former's Lieut. John W. Southin, of Ladysmith, in the presence of intimate friends and relatives. The bride who wore her travelling suit of navy blue cloth with taffeta hat to match, embroidered in rose, carried a bouquet of white roses and a sweet posy which was attended by her sister, Miss Alice Bulkwill, who was also in navy blue, with a hat of black satin. She carried pink carnations. Immediately after the ceremony Lieut. and Mrs. Southin left for Vancouver Island, where they will spend their honeymoon, mother and visiting for a part of the time at Cameron Lake Hotel. The bride is a graduate of McGill University and has the degree of B. A. She is also numbered among the many charming native daughters of British Columbia. The bride served for a few hours with the 29th Battalion, attaining the rank of Lieutenant. They will reside for a time in Vancouver upon their return, going on later to Squamish.

Nearly one hundred of the patients at the Esquimalt Military Hospital enjoyed an informal concert and dance given under the auspices of the Women's Auxiliary to the G. W. V. A. last night. About sixty members of the auxiliary made the journey out to the hospital, converting refreshments for the patients of the hospital, the delegates of which Capt. Hincliffe presided as chairman, included contributions by Mrs. Waller, Miss McDonald, Miss I. Taylor and Mr. Arthur Gore. Mrs. McCullum gave a number of recitations. Mrs. A. J. Gibbons played the accompaniment for the vocal selections.

At the conclusion of the programme the floor was cleared and dancing was participated in until late in the evening. Mrs. A. Hibbs' generous gift of cigarettes for the patients was greatly appreciated.

Mrs. H. H. Eykyn left yesterday for the mainland en route for her estate at Lamberton, Minnesota, U.S.A., where she will spend some weeks before leaving for England. Mrs. Eykyn who came to Britain to investigate the possibilities for women to go on the land is delighted with the result of her visit to Vancouver Island and will report favorably to the British Government with a view to having former members of the land army sent out to this province.

Mr. and Mrs. J. R. Colley and their small son have arrived in the city from Kamloops, B.C., and will spend the next two weeks holidaying at Oak Bay.

H. Y. Eastman, of Southampton, England, and Mr. and Mrs. Edward P. Gorrett, of Minneapolis, Minnesota, are registered at the Strathcona Hotel.

Mr. and Mrs. J. E. Record, of Edmonton, and Mrs. J. E. Record, of Toronto, are staying at the Empress Hotel.

Hayes Lloyd, of Ottawa, is registered at the Empress Hotel.

GIRL GUIDES' MEETING.

The public meeting in connection with the Girl Guides, which will be held to-morrow at 7:45 in the Cathedral schoolroom, will be one of exceptional interest to parents, teachers and Sunday School teachers, and all who take an interest in the welfare of girls and girls. Dean Quailey will be the chairman, and on occasion the speaker will be Mrs. Baden-Powell of Oxford, England, and Miss Macdonald of the Isles, Girl Guide Commissioners from London.

Shopkeeper: "You say you've worn this hat for two years?"

Customer: "Yes, and it looks all right still. Twice I've had it cleaned and once I exchanged it in a restaurant for one that was entirely new."

Mr. and Mrs. H. Lockhart, of Port-Louis, are registered at the Empress Hotel.

Mr. and Mrs. J. J. White, of Winnipeg, are staying at the Empress Hotel.

CHOSEN DELEGATE

Mrs. Hazel Shakespeare and Mrs. R. W. Waggoner left on this afternoon for Vancouver, where they will attend the marriage of Miss Dorothy Kirk and J. Young, which is to take place on July 22. The bride-elect is the daughter of Mr. and Mrs. C. L. Kirk, formerly of Tsawwassen, and was well-known in local musical circles as a charming singer.

Miss Muriel Grimmer, school nurse, is spending a ten days' vacation in Seattle. To honor her guest Miss Winona entertained at a luncheon at her home at Queen Anne Hill on Friday last. Covers were laid for twelve. Baskets of Dorothy Perkins roses made charming and effective decorations throughout the reception rooms and on the luncheon table.

Madame Evelyn Bennett-Brook left Victoria on Wednesday, to spend the summer holidays with friends in Seattle, San Francisco, and Los Angeles.

Mrs. J. K. Cornwall and family, of Edmonton, Alberta, are spending a few weeks here, and are guests at the Alexandra Club, Courtney St.

A. P. Wydie, of the Strathcona Lodge, Shawinigan Lake, and Miss D. E. Durick, of Fort Washington, are guests at the Strathcona Hotel.

Mr. and Mrs. M. Simpson and son, of Vancouver, are visiting their parents, Mr. and Mrs. William Harper, of this city.

Mr. and Mrs. C. C. Cator returned to their home in Vancouver on Monday after visiting the former's Lieut. John W. Southin, of Vancouver, and will spend the next few months at Mrs. Tatlow's Summer home at Fintry Bay.

Mr. and Mrs. John D. Rockefellar, Jr., and family left on Monday night for Vancouver and yesterday resumed their journey to Banff and Lake Louise, where they will make a prolonged stay.

Mrs. R. G. Tatlow and Mrs. Harry Tatlow, came over from Vancouver yesterday and will spend the next few months at Mrs. Tatlow's Summer home at Fintry Bay.

Mr. and Mrs. R. L. Dingwall, of Milwaukee, Wisconsin, are registered at the Empress Hotel.

Mrs. J. W. Steele, and Mrs. M. Martin, of Vancouver, are guests at the Strathcona Hotel.

Mr. and Mrs. Sydney J. Bowie, of Birmingham, Ala., are guests at the Empress Hotel.

Miss Clements has returned to the city after visiting Mrs. R. Spears in Vancouver.

Mr. and Mrs. H. Lockhart, of Port-Louis, are registered at the Empress Hotel.

Mr. and Mrs. J. J. White, of Winnipeg, are staying at the Empress Hotel.

Hayes Lloyd, of Ottawa, is registered at the Empress Hotel.

MAY ELUDE HIGH CAR FARE ISSUE

Aldermen Anxious to Be Out of the Seven-Cent Controversy

The Mayor and aldermen may retire altogether from participating in the street railway fare issue now that the B. C. Electric Railway Company is applying to the Board of Railways Commission for seven-cent fare. It was asserted at the City Hall to-day by one of the members of the committee that is handling the negotiations for the city.

This would mean that there would be no restrictions on jitneys and electric light rates would remain the same, it was explained.

With the present company collecting seven-cent fares, jitneys would flourish and increase in numbers and men out of work and those with spare motor cars would be able to find profitable employment on seven-cent jitney routes, said one of the aldermen. "Everybody ought to be happy."

The question will come before the City Council Monday night. A. T. Goward, local manager of the B. C. Electric Railway Company, has informed the Mayor and aldermen that the company is applying to the Railways Board for the seven-cent fare. For some time the city and the company have been negotiating over a six-cent fare and the complete suppression of jitneys and reduction on electric lighting rates, in accordance with the recommendations of the Shortt report.

Now the B. C. Electric finds that it is going behind so rapidly that it is hopeless to expect to operate on even a six-cent fare and is demanding seven cents. The city, however, has no power from the Legislature to negotiate for a fare greater than six cents.

Because of this limit placed on its fare and the conversations over the jitneys, electric lighting rate reductions, aldermen feel that they would be just as well off if they are not mixed up in anything that will bring about a big increase in street railway fares without any other compensation. It is for this reason, they say, that the Council may relinquish the chance to "get out from under" the whole thing and let the Railways Board assume the responsibility.

HON. S. F. TOLMIE

ENGAGED AT FAIRS

City Member Will Not Be Home For Some Weeks

Hon. S. F. Tolmie, M. P., is not expected to reach home before the early part of September. The Minister of Agriculture is engaged at the present time on the prairies at various official functions, being at Brandon till July 23, and then proceeding to Fort William until next Wednesday, in connection with agricultural shows.

He has accepted an invitation to open the Vancouver exhibition this Fall.

TWO LOCAL LADIES CONTINUE TO WIN

Miss Neame and Miss Leeming Won Their Games Easily

Vancouver, July 21.—Bettens and Weinstein, the young California tennis cracks, were eliminated in the mainland tennis championships this morning by Verley and Holmes. It was a hard match but experience told and the southerners, who played a net game, lost by the most effective lobbing of the Canadian tennis.

The other feature match of the morning was that between Mrs. Verley, of the Vancouver Club, and Mrs. Rigby, of Denmark. Mrs. Rigby took the first set, lost the second and though she led by five games to one in the final set, was unable to withstand the well-placed drives of the former Winnipeg star, who won the final 7-5.

The Scores.

These are the morning scores: Holmes and Verley beat Bettens and Weinstein, California, 6-3, 6-4. Mrs. Cushing beat Miss Dyke, 6-0, 6-0.

Mrs. Burbridge and Stevens (Portland) beat Miss B. Elliott and Stevens, 6-3, 6-2.

Miss Neame (Victoria) beat Mrs. Graham, 6-4, 6-0.

Verley beat Mrs. Godfrey, 6-1, 6-1.

Miss Leeming (Victoria) beat Miss Buller, 6-0, 6-0.

Mrs. Verley beat Mrs. Rigby, 6-4, 7-5.

Martin beat Proctor, 6-3, 6-2.

RESOLUTE WON ON TIME ALLOWANCE

Official Timing of To-day's Race Shows Sloops Tied on Elapsed Time

Sandy Hook, N. J., July 21.—The American defender Resolute to-day defeated Shamrock IV, in the third race in the series for the America's Cup by her time allowance and not a second more.

On the run home, with a ten-knot breeze behind them, the yachts with every sail ballooned out in the breeze made a pretty picture. They raced along beam to beam and from shore looked like twin spires of a great cathedral. The wind was covered with whitecaps from the wind, which carried the racers along so fast that many of the smaller excursion craft were much put to it to keep up with the sloops.

Resolute, rounding the turn with two minutes and four seconds to her credit on elapsed time, plus a time allowance of seven minutes and one second, had the chance of losing the race and broke on her spinaker and later her balloonier with seamanship speed.

Starting a long stern chase, Shamrock steadily cut down Resolute's lead until within the last mile she came alongside the defender, passed her and crossed the line nineteen seconds ahead of her by off-the-line calculation. This therefore would mean that the yacht, boat for boat, actually had tied on elapsed time.

The official summary of to-day's race follows:

Resolute—Start, 1.00.41; finish, 5.03.47; elapsed time, 4.03.66; corrected time, 3.56.05.

Shamrock—Start, 1.00.22; finish, 5.03.28; elapsed time, 4.03.06; corrected time, 4.02.06.

Resolute won by seven minutes one second corrected time. Elapsed time, tie.

Shamrock has two races to her credit and Resolute now has one. The series is the best three out of five.

The schedule calls for another race Friday.

JERRY WELLBURN WINS V.A.S.C. HANDICAP RACE

The regular semi-weekly handicap race of the V. A. S. C. was held last evening at the Gorge. Jerry Wellburn was first, George Silburn second and Jim McLean third.

In the polo game between the Red and Blue teams of the club the score was two all at the close. It was an exciting game.

This lady, the greatest Phrenologist known, can tell you facts amusing and interesting.

592 Johnson Street

A young officer, somewhat affected in style, was explaining to his men what happened to a shell after it left the gun. The comedian of the company could not refrain from making remarks sotto voce, much to the amusement of his companions.

Officer: "The shell, on leaving the gun, owing to the bore, goes round and round."

Voice: "The mulberry-bush."

Officer: "After its momentum is exhausted, gravity draws it to earth."

Others: "It would keep on for ever and ever."

Voice: "Amer."

C.P.R. May Shortly Get New Passenger Steamer

Company Said to Have Under Consideration Purchase of Fine Vessel to Augment Its Tonnage Plying Out of This Port.

In an effort to augment its fleet of coastwise steamships the C.P.R. is reported to be considering the purchase of a large passenger craft to ply out of the port of Victoria.

The need of additional tonnage to take care of the ever-increasing tourist traffic has long been apparent and particularly so since the sale of the Princess Margaret and the Princess May, coupled with the loss of the Princess Irene and the Princess Sophia.

Some months ago Captain J. W. Troup, manager of C.P.R. coast steamships, went to the United Kingdom to look into the shipbuilding situation there. He discovered that shipbuilding costs had increased enormously and at that delivery could not be guaranteed in two years.

The transportation situation on the coast has become increasingly difficult and in order to suffice its various services the company has been forced to keep its available passenger craft continuously in service.

Travel Creates Need.

Tourist travel this Summer, conspicuously during recent months, has been remarkably heavy, and next season is expected to exceed the present one in volume of travel to the coast.

The vessels of the C.P.R. have been carrying heavy loads of late. The Princess Charlotte is reported to have left recently with over a thousand passengers aboard, while five or six hundred passengers are an average complement.

Nothing is yet known about the type of the boat that the C.P.R. is seeking to acquire but it is said that a line has been secured on a steel passenger craft that could easily be adapted to coastwise needs.

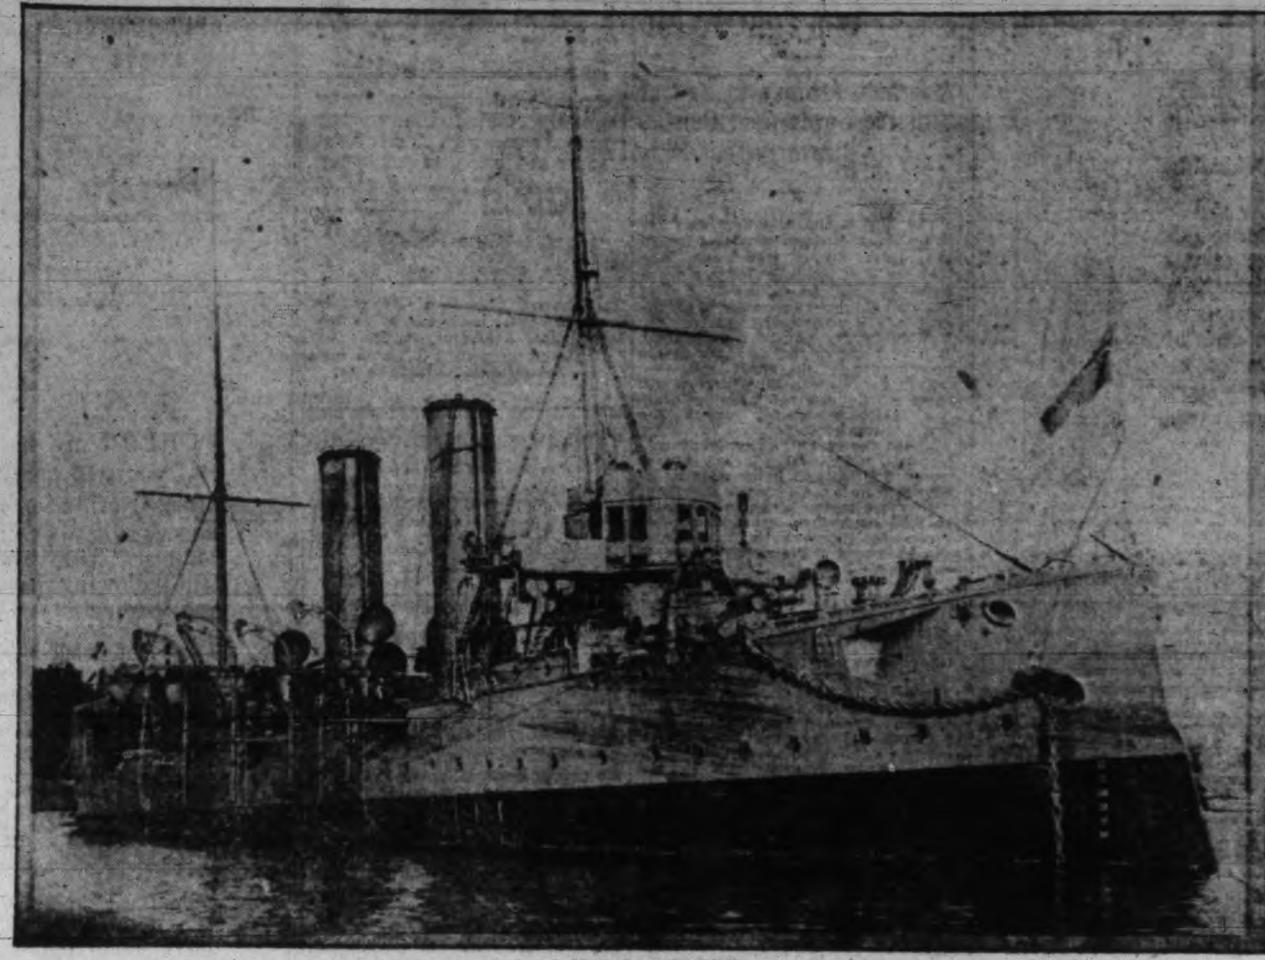

BRITISH TRAMP STEAMER IS NOW WORTH £225,000

Archibald Hurd, the well known writer of the London Daily Telegraph, in a recent article in that journal points out that an ordinary tramp steamer could be purchased in the Old Country for £50,000 seven years ago, while to-day the price is £225,000. With the shorter hours of labor and high wages prevailing, Mr. Hurd states that shipping interests, and engineers are faced with a serious situation in British shipbuilding. His figures show a sharp drop in the trade have not increased production, as was promised, and in fact the output is 70 per cent of that under comparative conditions in 1913. In the face of increased competition from American and Japanese firms Mr. Hurd declares that the outlook in the engineering and shipbuilding occupations in England is distinctly discouraging.

D. B. HANNA HAS STRENUOUS CAREER

Will Arrive Here With the Minister of Railways, on Sunday

D. B. Hanna, chairman of the Canadian National Railways, who will arrive here on Sunday with Hon. J. D. Reid, was born on December 26, 1855, at Thornliebank, near Glasgow, Scotland, and entered railway service with the Glasgow & South Western Railway in 1874. In 1878 Mr. Hanna transferred to the Caledonian Railway and was cashier for that road in Stobcross Terminal, Glasgow, from its opening to the date he left to board ship for Canada in 1882. At this time the Grand Trunk Railway made it a practice to bring men to their headquarters in Montreal to undergo a course of railway experience and Mr. Hanna was one of those who took advantage of this opportunity. On arrival in Canada therefore Mr. Hanna entered the service of G. T. R. being employed in the auditing department in Montreal. Two years later he made his third engagement with the regular department of the New York, West Shore & Buffalo Railway, with headquarters at New York City, remaining there two years, 1884-1886. The fourth move was from New York to Portage la Prairie, where in 1886 he became chief accountant of the Manitoba Central. In 1888 he became treasurer and in the year following land commissioner as well.

Entered C. N. R. in 1895.

Three years later Mackenzie and Mann commenced the construction Gladstone to Dauphin, of the first hundred-mile stretch of the Canadian Northern Railway System. It was not so known at that time, but bore the appellation of the Lake Manitoba & Saskatchewan Company. The two railway builders were given a manager to operate the road, and the choice devolved upon D. B. Hanna. He entered the service of the Canadian Northern a few days before Christmas of 1898 as superintendent. The road was made to pay its charges the first year and finished a tidy plus. And when the members of the Manitoba Legislature, which had guaranteed the bonds of the enterprise, journeyed up to Dauphin in 1897 they expressed themselves as positively amazed at the evidence of prosperity in the territory the lines served. This success encouraged further expansion, which was most marked during the five years that followed, the lines of the C. N. spreading far afield from the original 100 miles stretching from Gladstone to Dauphin.

In the general office of the Canadian Northern were established in Toronto in 1902, Mr. Hanna came east to take up enlarged responsibilities as third vice-president, with supervision of all departments of the road. He held the reins of the great operating, financial, and traffic departments and continued to serve by dint of long hours the strict kind of close scrutiny to the problems of the road as in its early days, only the perspective was for 10,000 miles, with termini at Atlantic and Pacific tide water, instead of the 100 miles "section" between Gladstone and Dauphin in central Manitoba.

His Steady Progress.

Mr. Hanna in 1907, President of the Canadian Northern, became President of the Quebec and Lake St. John Railway. He became President of the Niagara, St. Catharines and Toronto Railway Company, and also of the Duluth, Winnipeg and Manitoba & Saskatchewan Company, which had succeeded in 1907 in taking over the main line at Fort Frances, Ont., to effect salvage.

The Roche Point came along and Captain Magnus Knutson, young, turned to make the venture. With a tow-line from the Snohomish he sailed, close to the side of the stranded schooner and succeeded in getting a line aboard her. Except for a few stow-in-planks the Presho caused serious damage. She was towed to Port Angeles by the

BRIEF LOCALS

Rifle Association Meeting.—There
will be a meeting of the Canadian
Scottish Rifle Association at 1205
Broad Street, on Thursday evening,
July 22, at 8 p.m. All entry fees
for the B.C.R.A. meeting must be
handed in on that evening, so all
members interested are requested to
attend. *

'Teen-Age Girls' Camp.—Girls de-
sirous of attending the camp to be
held under the auspices of the Local
Co-operative Committee on Girls'
Work at Elk Lake on August 3 to 11,
must register their names without
fail by Friday at the Y. W. C. A.
Stobart Building, Yates Street.

In Saanich Court—Louis J. Duval,
summoned by Mrs. Esther E. Duval
for non-support under the Des-
titute Wives Maintenance Act, was ordered
to pay the support of his wife and two children by remitting
weekly payments. The plaintiff was
represented by W. C. Moresby, while
Mr. Tait appeared for the accused.
Decision was handed down by Magis-
trate Jay in the Saanich Court to-
day. *

Stealing a Ride.—Riding behind one
of Heaney's dray horses, drawn yester-
day by a team of Gascons, of this
city, fell off and was badly crush-
ed under one of the rear wheels.
The boy was conveyed to St. Joseph's
Hospital in a serious condition. He had
been stealing a ride on the rear of
the dray, and nobody saw him fall
off, until his cries were heard. An accident
occurred on Superior Street
shortly after five o'clock yesterday
afternoon. The boy is progressing
to-day as well as can be expected. *

Will Join Hands.—The invitation
tendered by the Duncan Board of
Trade under President Hugh Savage,
to the members of the local Board
to join the forthcoming annual
banquet, has been accepted.

Major George W. Cripp, O.
B. E., Appointed; Served
in France

Major George W. Cripp has been
appointed assessor for Vancouver
district, dating from July 15, accord-
ing to an announcement made by
Hon. John Hart, Minister of Finance,
to-day.

Major Cripp left Vancouver in 1915
with the 18th Battalion C.E.F. He
was serving in France and was
wounded. He became Anti-Gas In-
structor at Seaford. Later, Major
Cripp returned to France with Can-
adian Railway Transport and was
gassed just before the armistice, in-
volved home at the end of 1918. He
was awarded the O.B.E. for services
rendered the armies in France and
Flanders.

Emphatic Assertion by Chairman
Dr. Baker that the people of British
Columbia were best able to look after
and conserve the game of British
Columbia featured the public session
of the Provincial Game Conservation
Board which sat in the Executive
Chamber at the Parliament Build-
ing this morning, during the represen-
tations of sportsmen from many
parts of the Province.

The session to-day, lasting from
half past ten to one o'clock, spent
most of its time considering the sug-
gestions of representative sportsmen
on the subject of hunting seasons on
deer, grouse, pheasant, partridge
and quail. While the representa-
tives of each different section of the
Province had different ideas on the
question, and proposed different seasons,
it appeared to be the general
consensus of opinion that grouse,
both blue and spruce, should have
a season of 90 days, the season on
the former should be short and
on the latter closed altogether, that
pheasants should be well protected,
except on Salt Spring and other
islands and that quail were so plen-
tiful that a long open season was de-
sirable.

Victoria Game Hunters.—
Major Porter strongly opposed the
removal of the regulations limiting
the shooting of grouse and pheasants
to certain hours. He did not consider
night shooting sportsmanlike. It
seemed to him mean to take advan-
tage of the birds after sundown.
Shooting ducks on light after dark
often was more like murder than
sport he said. The Mayor felt that
the present B.C. regulations were
desirable.

Finally, after considerable discus-
sion, the meeting unanimously passed
a resolution asking the Game Board to
request Ottawa to leave unchanged the
B.C. regulations to the effect that
shooting be allowed between one hour
before sunrise and one hour after
sunset.

Speaking as a sportsman and not
as a member of the Game Board, Dr.
Baker declared that the people of British
Columbia were the best judges of
game. The public session of the Provincial
Game Conservation Board had never lost a
case on the question of shooting hours.

Mayors Views.

game. The public session of the Provincial
Game Conservation Board had never lost a
case on the question of shooting hours.

Victorian Game Hunters.

D. E. Whittaker, President of the
Victoria and District Game Association,
stated that this organization desired
that the deer season should
open October 2 and close December
15, with a bag limit of 100. He also
urged that a system of tags be im-
plemented like that of prevailing in
Ontario.

The Board was also urged to close
the deer season before the "running"
period commenced, late in the Fall.

A deer season lasting from October
1 to December 31 was advocated by
L. E. Phillips, of Delta.

W. G. Green of the North Shore
Game Association, of North Vancouver,
urged an open season from the
first Monday in October until De-
cember 15.

Deer shot too early in the season
was very likely to be spoiled by flies,
C. J. White, of the Vancouver Hunt-
ing Club, asserted.

He did not consider that it was much
easier to shoot deer during the "run-
ning" season than at other times. He
thought that the open season should
open October 1 or 2 and close Decem-
ber 15. Mr. White strongly favored
the closing of the deer season in
which the number of deer shot by
each hunter could be checked up.
Under present conditions, he said, it
was impossible except by pure accident,
for the game warden to know
whether the hunters were keeping
within the legal bag limit.

Declining that either deer or the
farmer must go, Mr. Pickett urged
that the Board allow the shooting of
deer on the Island if nowhere else.
It was explained to him that farmers
could shoot deer which were destroy-
ing their crops.

Varying Views.

H. P. Keary, of the New West-
minster Rod and Gun Association,
suggested that the deer season open
September 15 and close December
15. He maintained that the fall hunting
was most fatal to them.

Colonel Collard, of Cowichan, fav-
ored an open season from Septem-
ber 15 to December 15, and a bag
limit of three deer.

"If we don't have any cattle," ob-
served Dr. Brown, of Nanaimo, "and
if we shoot does in the woods we
soon shall have no deer. A doe only

SPORTING NEWS

Seattle Falls Before Morton's Fast Curves

Big Right-Hander Let Giants Down With Two Hits and Whiffed Eleven of Them; Washington Came to Grief in Fourth Inning; Dempsey Lifts Ball Out of Lot For Four Bases.

Victoria, 6; Seattle, 0.

Harry Morton stood the Giants on their heads, spun them around and then dropped them flat on their backs at the Stadium last evening. He simply had no heart at all for the lowly tailenders and made them look like a bunch of turnstiles when they were at bat. Morton's fast ball was too much for the Giants and eleven of them fanned. Only two of the visitors connected for safeties, Cuyler dropping a Texas Leaguer behind second in the fifth inning and Hoffman cracking one passed Dempsey in the seventh.

The fact that the big-league scouts had their critical eyes upon his twirling did not upset Morton in the slightest. After an uncertain start he met brilliant hurling only twenty-three men facing him in the last seven innings. Morton had splendid control and walked only two men, both passes being granted in the first inning.

Washington Breaks.

Washington did the twirling for Seattle and outside of the fourthinning when he broke like a china doll, went along fairly smoothly. Shanno did some brilliant fielding and broke up several drives by the Caps.

Victoria chased over its first run in the third inning. Neighbors singled and took second on Land's out. Morton hit the ball along the first base line. Washington, who is hot in making the three-to-five hit, Morton, as he was a foot off the bag. The ball went to the fence and Neighbors scored.

Things broke badly for Seattle in the fourth. Brown worked Washington for a pass and Carman shot the

GUS DAVIS, SOUTHPAW, WILL JOIN CAPITALS

Gus Davis, a southpaw, with a splendid record, will join the Capitals in a couple of days. Davis will take the place of Lawson who jumped to the outlaws last week.

ball over third for two bases. Dempsey followed with a home run, clearing up the bases. The ball Dempsey hit struck the top of the fence about two feet inside the right foul line and dropped over on to the road. This unsteadied Washington, and, when making a delivery to Neighbors, almost fell over in the box. Umpire Schilling ordered Neighbors to first. Boelze overthrew his return to Washington, and as one was covering up the ball went to the foul line and Neighbors took second. Land, who had bail to Shannon but he could not handle it quickly enough to get a base-runner. He tried to cut off Neighbors at third, but Cy slid into the bag and even if Grant had not muffed the throw, he would have not had time to tag the runner. More to the point, though, was the score of Neighbors. Elliott followed with a slow roller to Washington, who tried to pick off Land at third. The pog was bad and Land scored when the ball went to the outfield.

Look Just as Weak.

Although the Giants were supposed to be strengthened recently they look just as weak as on their last visit to Victoria. The Capitals may drop an appleate to the Caps in the double series. If they fail to make a general cleanup it will be due to over-confidence.

Umpire Schilling, who takes the

CANADIAN SHOTS AT ANTWERP OPTIMISTIC

Antwerp, July 21.—The Canadian Trapshooters, under J. H. Black, of Winnipeg, are in Antwerp in readiness for the shooting events which will begin Thursday and probably will continue through Friday.

Capt. Black is very optimistic about the chances of his team in this competition, and he is quoted as saying "they will do just as well as the Falcons did in the Olympic Hockey match," in which they won the championship.

McGowen's place as a league arbitrator, made his initial appearance here last evening. He looked good, having a particularly keen eye for balls and strikes. There were, however, no close decisions for him to make.

Eastley in Form.

Vancouver, July 21.—Two errors on the part of the Beavers in the sixth inning yesterday gave Yakima the first game of the series by a score of two to nil.

For five sessions the teams had battled to gain the upper hand, but air-tight pitching by Cooper and Eastley, who opposed each other, backed by errorless fielding, had beaten the efforts of bat go for naught.

Score: Yakima 2 6 2

Vancouver 0 3 4

Batteries—Smith, Treckle, Blossom and Fisher; Genin; Hovey and Stevens.

Indians' Pitchers Weak.

Tacoma, July 21.—Tacoma pounded three Spokane hurlers hard yesterday and defeated Spokane 10 to 4. Smith was batted out in the first inning and Treckle, who succeeded him was touched up for five runs in the fifth frame. Blossom, recruit finished. Hovey pitched a steady game for Tacoma. Spokane used 14 players, including Manager Blankenship, in the attempt to stop the Indians' onslaught.

FIVE-SIDE SOCCER WILL FEATURE MEET

Sixteen Teams in Competition
For Championship of Island
at V.D.F.A. Field Day

Sixteen teams are expected here to compete in the five-side football competition which is to be held on Saturday afternoon next month. The postponement is due to the demise of Mr. A. H. Black, of Winnipeg, who was the president of the Club. Mr. McLeavey, who was kindly offering the use of his string of famous horses, has consented to help the Club out, as originally planned, when the meet is held next month.

Percy Payne has donated a handsome cup which is to be awarded to the winners of the competition. Five-side soccer is quite popular and will no doubt attract a large attendance.

At a meeting of the Victoria and Island Athletic Association, held this morning, it was decided to postpone the Carnival of Sports which were to be held at Oak Bay Park on Saturday afternoon until next month. The postponement is due to the demise of Mr. A. H. Black, of Winnipeg, who was the president of the Club.

Mr. McLeavey, who was kindly offering the use of his string of famous horses, has consented to help the Club out, as originally planned, when the meet is held next month.

At a meeting of the Victoria and District Football Association held last evening at the United Service Club, arrangements for the field day were completed. The programme was decided upon and the secretary will forward entry forms to the various clubs as soon as they are off the presses. The B.C.A.A.U. has granted the necessary sanction for the meet.

The Events.

The programme of events will be as follows:

First round, five-side football, open, for the championship of Vancouver Island.

100 yards, open.

Second round, five-side football, 100 yards (conceded to registered football players.)

Half-mile relay race (open to returned sailor and soldiers organizations only). Teams of four men, 200 yards each, for Whitney Cup.

Semi-final, five-side football, 220 yards, open.

Final, five-side football.

**WARDS AND METS WIN
INTERMEDIATE GAMES**

In the intermediate league games played last evening the Mets and Wards won their games. The Mets played the Beavers at the North Ward Park and the Wards clashed with the Civil Servants at the Beacon Hill Diamond.

The Mets had quite a tussle with the Beavers and were not assured of the game until Hilton slammed our a home-run in the seventh inning with two men on bases. Curtis, who twirled for the Mets, was in splendid form and had a good ball.

Score: Mets 5, Beavers 2.

The Wards had quite a tussle with the Beavers and were not assured of the game until Hilton slammed our a home-run in the seventh inning with two men on bases. Curtis, who twirled for the Mets, was in splendid form and had a good ball.

SPORTING NEWS**B. C. TEAM IS AFTER SOCCER CHAMPIONSHIP**

Winnipeg, July 21.—Winnipeg is to be the scene of the first eliminating contest for the Connaught Cup, emblematic of the football championship of Canada when the champions of Saskatchewan meet the Britanniæ, Manitoba winners, here next Saturday and Monday evening. Two games will be played, total goals to count, and the winners will then go to Toronto where the semi-finals and finals are to be staged, during the week of August 2.

Dan McConnell, vice-president of the D. F. A., received word this morning from headquarters at Toronto advising him of the arrangements for the two western provinces to meet here. British Columbia will likely go right through to Toronto as Alberta evidently is not taking part in the series.

LEAGUE BASEBALL**American League.**

New York, July 21.—By dividing to-day's double-header New York won the series from Chicago four games to two. Ruth hit his thirty-second home run of the season in the first game.

First game—	R. H. E.
Chicago	7 11 2
New York	5 10 2
Batteries—Faber, Kerr and Schalk; Quinn, McGrath and Ruel.	
Second game—	R. H. E.
Chicago	3 10 0
New York	6 8 2
Batteries—Cicotte and Schalk; Mogridge and Ruel.	

Cleveland 9 14 0
Boston 8 15 2
Batteries—Morton, Nichols, White, Bagby and O'Neill; Fortune, Karr, and Walters.

Philadelphia, July 21.—Sister's home run drive over the right field wall in the eighth won for St. Louis 5 to 4. Jacobson's home run with two on bases in the sixth put St. Louis ahead, but Dugan's triple sandwiched between singles by Welch and Perkins tied the score in the latter half of the inning.

The score— R. H. E.
St. Louis 5 10 1
Philadelphia 4 12 0
Batteries—Burwell, Davis and Sevred; Moore, Naylor and Perkins.

Tigers Take Two.

First game— R. H. E.
Detroit 7 15 0
Washington 6 14 3
Batteries—Oldham, Dauss and Armstrong; Courtney, Snyder, Schacht, Eckert and Picinich.

Second game— R. H. E.
Detroit 2 7 0
Washington 1 5 2
Batteries—Ehmke and Stanage; Shaw, Snyder and Pinch.

WILL STEEL MERGER MAKE OR MAR B.C. IRON PLANT? ASKS HON. WM. SLOAN

(Continued from page 1.)

amiss to draw this situation especially to the attention of the delegates to this convention. Of course, we know the explanations of this condition—high cost of labour, material and forth—and their force is easily appreciated. There is no doubt that those engaged in gold mining, for the reasons briefly given, and owing to the fixed value of the precious metal, are faced with a difficult problem.

Placers Declining
The placer gold production of the Province has been declining steadily in British Columbia; in fact, this tendency has been apparent ever since the outbreak of the war. Large areas of placer ground are held under leases which have, I believe, about \$60 and \$90 per month paid on few of them, comparatively, is work performed. Not only that, but in the majority of instances, the annual statutory dues are in arrears.

"After carefully considering this situation it was decided at the last session of the Legislature that the important change should be made to the Placer Mining Act, having in view the discouragement of the holding of such extensive ground without development. Accordingly amendments were introduced and passed.

The result is that placer leases now are held in conformity with the terms of the new Act, it being necessary to record annually the work done during the year in order to hold title. The rentals have been materially decreased, and the owners of leases who are in arrears are permitted to consolidate these arrears and to pay the same in instalments spread over a lengthy period, always providing that all rents are met. With these alterations British Columbia should, it is believed, become a large producer of placer gold.

There are large areas which should yield richly to hydraulic and dredging treatment and interest now again manifested in several sections with a view to the establishment of dredging operations on a large scale. Hitherto, too, there has been collected a royalty of 50¢ an ounce on placer gold. This has been eliminated. The effect, no doubt, will be the encouragement of prospecting and we may, I am convinced, confidently look forward to a substantial increase in the placer gold output in our Province."

Mineral Survey Act

The Minister proceeded to deal with the work of the Mineral Survey and Development Act, remarking:

"The mileage of mining roads constructed from 1917 to 1920 is 192,483 of mining trails 223,50, and that of mining roads repaired and kept in condition for use 1,274,87 and of mining trails 2,242,10. Considerable further appropriations have been made since the beginning of the year."

Iron Ore Reserves

Mr. Sloan, replying to Mr. Bowes' criticism, with regard to iron ore reserves, explained that it had been necessary to put a reserve on the Taseko or Whitemore district and added: "In view of our desire that nothing should be allowed to stand in the way of an iron and steel enterprise we thought it the part of wisdom to have the legislature give the Minister of Mines power to place a reserve on iron deposits of such importance in order that their development might not be interfered with and held up by possible speculators."

Need of Development

Mr. Sloan alluded to crown granted iron claims on which no work is being done. "Our experience," he remarked, "is that large areas of valuable iron ore deposits are being held by speculators. Some of these crown grants have been held inactivity, valueless to the country, for a quarter of a century." Exorbitant prices have been placed on them and there they stand, simply waiting for enterprise and industry to bring their owners an unearned increment and in the meantime of no benefit to any individual or to the Province. There has been much criticism on this score and it is felt that some method must be devised to compel these holders of iron properties to get busy and do some real development or make room for someone willing to do so.

"It is interesting to point to the geological work of New Zealand while on the subject. Where it is necessary for the holder of a mineral claim to work the same continuously if he would retain his title. It even requires that a certain number of workers be employed, the number depending on the character of the property and the official estimate of its value and importance."

Prospecting Parties

Mr. Sloan later with the Government's policy regarding assistance to returned soldiers. He pointed out that twenty-five parties of men are now in the field prospecting. He stated:

"The Government grubstakes them and pays their transportation as far as there are recognized avenues of transportation. Their maintenance while in the field will be fully provided for and, at the end of the season, men who have served the full term of their contract undertaking will be eligible. To the prospecting party the sum of \$125, and to the inexperienced \$100. As to claims staked it is provided that they are the property of the stakers, but that upon them the Government will have a first charge equal to double the amount of money advanced to the prospecting party with interest at six per cent. This is the same as the policy adopted in general terms. It proved popular—at any rate a great many applications were received—and the full twenty-five parties are now at work in the hills."

To Teach Theory

The Minister continued: "It is the intention this winter to institute a series of lectures by the various resident engineers bearing upon the technical and theoretical aspect of prospection. This will give those who wish to brush up on the rudiments of mineralogy and geology an opportunity to do so. Steps also are being taken to secure samples of the less common and little known minerals for exhibit at the headquarters of the resident mining engineers."

Back to the Hills

The Minister acknowledged his honorary presidency of the Prospectors' Association and thought it was a tribute to the day when "I used to shoulder my pick and hit the trail."

SUFFERED FIVE YEARS

Finally Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Paris, Ont.—"For five years I suffered from pains caused by displacement of my organs and in my back. All of this time I was unfit for work and was taking different medicines that I thought were good. I saw the advertisements in the papers of Lydia E. Pinkham's Vegetable Compound and took it faithfully. I am now in perfect health and do my own work. I recommend it to others and give you permission to publish this letter in your little books and in the newspapers as a testimonial."—Mrs. D. Cassady, Box 461, Paris, Ont.

"Many women will continue to suffer so long as more than we can understand, when they can find health in Lydia E. Pinkham's Vegetable Compound."

"For forty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as dyspepsia, inflammation, ulceration, irregularities, etc."

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

sity of legislation to prevent wild cutting of stock.

Signs of Improvement

Concluding, he said: "Everywhere we travel throughout the Kootenays there are unmistakable signs of improvement and of an era of prosperity. Metallurgical science has made remarkable strides the last few years, impetus, no doubt, having been given because of the pressing needs arising out of the war. It is not surprising therefore to note that the officials of the Canadian Consolidated Mining and Smelting Company at Trail had solved the problem as to the economic treatment of Rossland ores and that shortly a very large concentrator along the lines newly devised will be constructed near Rossland to treat this mineral. This will be of great benefit to all mining men and must be particularly welcome to the people of Rossland who have so strikingly demonstrated their faith in that camp. This faith now has been justified, and it seems assured that Rossland is destined to become even more active than it was in the palmy days of years ago." He also alludes to Silverton, copper Mountain and other points, and foresees that mining in British Columbia is on the threshold of an era of development and progress.

Mr. Sloan, replying to Mr. Bowes' criticism, explained that it had been necessary to put a reserve on the Taseko or Whitemore district and added: "In view of our desire that nothing should be allowed to stand in the way of an iron and steel enterprise we thought it the part of wisdom to have the legislature give the Minister of Mines power to place a reserve on iron deposits of such importance in order that their development might not be interfered with and held up by possible speculators."

PLAN BARTER WITH RUSSIANS

Industrial Revival Society in Japan Includes British, Germans and Canadians

Yokohama, July 3.—(By Mail)—Tentative plans for the Society for Revival of Russian Trade and Industry, a world co-operative organization, had been completed. Business men of many countries from their own country, with the assurance of aid from capitalists of the United States, England, Canada, Germany, Belgium and other countries, are the organizers of the association, which is to be a \$450,000 company.

Although the society is enlisting the aid of business men and organizations of many companies, the determination of the founders to prevent the exploitation of Russian wealth and resources by foreign interests is shown by the fact that recently the offer of a large Japanese establishment to invest \$1,000,000 in the organization in return for certain concessions was refused.

The chairman of the organizing group is V. Koobrin, before the revolution a wealthy manufacturer of Moscow. He has been in Yokohama for several weeks working on plans for the society.

Has 450 Shareholders.

Mr. Koobrin has 450 members in the new company, fifty of them firms whose names are known throughout the entire world of business. An organization in Germany which before the war was a most powerful factor in European trade, a well known American firm and various other smaller establishments have written Mr. Koobrin and guaranteed that when the actual work of starting trade relations between the ports of Russia and the world is ready, these organizations stand ready to take an active interest in the company's affairs.

The object of the organization is not merely a move to restore the trade of Russia. It is to be a co-operative society which will give the factors of the world the products of Russia which have been badly needed in the last few years. Each shareholder in the organization will receive a part of the profits, but when the shareholders profit comes, but the business the shareholder represent will receive immediately, in exchange for the goods the foreign business sends to Russia, coal and gold from the mines of Siberia, furs and oils from Russian ports, and the many other Russian products. The money raised by the shareholders now will not be used as a medium of exchange. The products will be exchanged by an arrangement of barter, but this arrangement, only a temporary one, Russian manufacturers, particularly Russian mines will receive mining machinery from the United States, clothing material will be sent from Europe, and in return the products of Russia which are most needed will be sent out from the Russian ports.

FINDS MASTODON JAW

Indiana Farmer Makes Prehistoric Discovery With His Plow.

Columbia City, Ind., July 21.—The lower jawbone of a mastodon was plowed up recently by John Johnson, son of Thorn Creek Township, six miles north of here, near Loon Lake. Mr. Johnson's plough struck two of the teeth, which broke off. Johnson, after unearthing the jawbone, dug deeper in the hope of finding more bones, but discovered nothing.

The jawbone is thirty inches long and twenty-six inches wide. The two

FRUIT PRICES OFF TO-DAY, BUT EGGS AND BUTTER RISE

First Carload of Apricots Arrives to Meet Big Demand

Fruits are nearly all down in price to-day on the wholesale market, while eggs are up four cents a dozen, and butter one to two cents a pound on all grades.

The first carload of apricots was unloaded to-day in perfect condition. Dealers expect a busy season, while it lasts. The season will be short, however, they say. Table apricots are wholesaling at \$2.50 a crate and preserving varieties at \$2.35. In lots of ten or more boxes the preserving varieties are going at \$2.25.

Loganberries are down \$1 to \$4 a crate. Raspberries and black currants are down to \$3.75 a crate. Peaches and plums are both down again.

TYPHOID SERUM SUCCESS

Vaccination of Germans by British Checked Infection Without Injuring Any.

Berlin, July 21.—While the British were occupying German territory in December, 1918, an epidemic of typhoid broke out. The army authorities made the entire civil population submit to anti-typhoid vaccination. Now Doctor Baster published in the Deutsche Medizinische Wochenschrift a study of the results, which are summed up as follows:

1. The vaccination was accomplished without any injury to the health of any age group.

2. No appreciable influence on pregnancy or on lactation in nursing mothers could be noted.

3. The English vaccine, which contained also paratyphoid A and B strains, did not cause more severe reactions than the German vaccine, which contained only typhoid strains.

4. The vaccination checked successfully many cases of typhoid that were in the incubation stage and thus rid the population of the infection.

No information on the vaccination on the typhoid morbidity percentage among the vaccinated during the following six months, could be noted, but the vaccination attenuated the disease in the typhoid patients who were vaccinated.

Conclusion 5 would seem to indicate that two injections, as given, are not sufficient to immunize against the disease, and that three injections are necessary. The experience of the German Army has been that three injections are required to establish immunity.

MARKET UNCHANGED IN WALL STREET

(By Burdick Brothers, Ltd.)

New York, July 21.—There was not much change in prices to-day and the close showed very little variation. Much of the session showed a slight tendency, but as money was more liberal in the market, it failed to firm up slightly at the close. However, the market acted as if it had been well liquidated and stocks are expected to firm up in demand during the next few days.

FORMER OFFICIAL OF CITY PROMOTED

Major B. T. O'Grady is Now Assistant of Mineral District No. 5

Speaking at Nelson to-day in opening the International Mining Convention, Hon. William Sloan announced the appointment of Major B. T. O'Grady, M. C., as assistant to A. G. Langley, Mining Engineer for the Eastern, or No. 5, Mineral Survey district.

Major O'Grady is well known in Victoria, having been city surveyor during the time that the extensive local improvements were carried out in 1910 and subsequent years. After he left Victoria he went to Nelson, and when war broke out he joined the Canadian Engineers, transferred to England to the Lancashire Fusiliers, and with them saw service in France. Later he had some exciting experiences in Serbia with the advanced guard of the British army, details of which were published in The Times on his return to Victoria in April, 1919. In Serbia the Major contracted malaria and was invalided to England. Proceeding to France on recovery, he had some stirring times with the enemy in 1918, and was there when Armistice came round.

Mr. O'Grady has had a number of years practical experience of civil and mining engineering in South Africa and Canada. He is married to a Nelson lady.

It may be stated that efforts have been made by mining associations in the Kootenays to have No. 5 district divided because of its great extent, and the fact that mining is in progress in every part of it, and in making this announcement the Minister agrees that the requests for an assistant are legitimate.

To make arrangements for the visit of the British Empire Press party, which will arrive here next month, members of the Provincial Government, the City Council, the Victoria and Island Development Association, the Board of Trade, the Press and various public organizations will meet in the Board of Trade rooms to-morrow morning at ten o'clock.

According to present plans the press party will arrive in Victoria August 27. The visitors will be taken for a drive about the city and its environs, and on the following day will march north along the Island Highway as far as Duncan, returning on the Saturday evening in time for a Canadian Club banquet. On Sunday no formal entertainment will be given, as the visitors desire a day during which they may do as they please.

NO TROUBLE AT MINES

Cassidy Closed Down Through Over-production! Reopens To-day.

Despite reports of an investigator being busy at the mines at Cassidy, investigation reveals there is no strike, according to Comptroller Quinn of the Granby Mining and Smelting Company.

Mr. Quinn says that the mines have been closed down because the company's bunkers at Anyox were overflowing and there has been no place to store the coal.

"It was simply a matter of over-production," says Mr. Quinn. "We have had no difficulties with our men. In fact, applications for work at Cassidy far outnumber the positions available."

Supplies metallurgical coke of which there will soon be an over-production at Anyox will have to be marketed, he explains.
